

An aerial photograph of a roundabout with a central green island. The roundabout is a circular intersection with a central green island surrounded by a low concrete wall. Four roads meet at the roundabout, each with a zebra crossing. Traffic is visible on all four approaches. Surrounding the roundabout are various urban features: a large parking lot with several cars to the bottom left, a multi-story building with a flat roof to the top left, and a large, flat, open area (possibly a field or construction site) to the right. The roads are paved and have white lane markings.

An aerial photograph of a residential neighborhood. A green circle is drawn around a house in the lower-left quadrant of the image. The house is a two-story structure with a light-colored roof and a small front yard. The surrounding area includes other houses, streets, and some greenery. A large number '4' is visible in the bottom right corner of the image.
